

Southwest Anaheim (unincorporated area) Roadway Slurry Seal Treatment

OC Public Works will complete a road maintenance project in the unincorporated Anaheim area. Crews will lightly grind and apply a slurry seal treatment (asphalt pavement aggregate slurry seal) to various streets, then re-establish striping and pavement markings. **Door hanger notifications will be distributed and “No Parking” signs posted in construction areas 48-hours in advance of work.**

WHAT

Some roads will remain open during construction, yet **road closures and sidewalk detours will be required** to accommodate these road improvements. **“No Parking” signs** will be posted 48 hours in advance in all areas scheduled for work. **Vehicles parked in the “No Parking” area may be towed.**

Access to residences may be limited during working hours depending on location of work.

Area motorists may experience delays during working hours when traveling through the project area. Traffic control measures, such as construction signs and flag personnel, will be in place for your safety.

Streets will be closed until the slurry seal material dries, which could be about 4-6 hours after the work.

Residents may experience an increase in construction-related noise during working hours.

WHEN

Anticipated Construction Duration

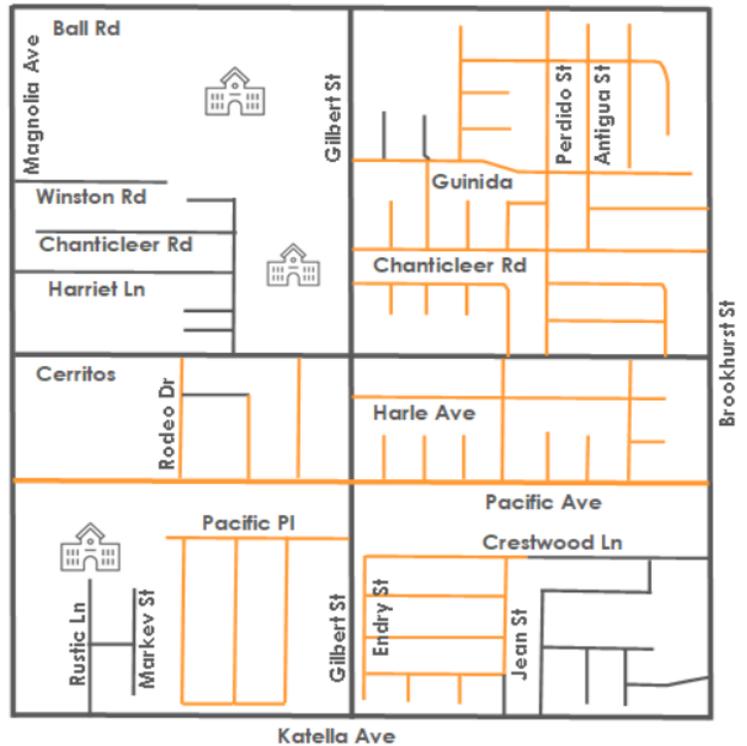

July 11 — Late August 2022

Working Hours

7 a.m. — 5 p.m.

The construction schedule is tentative and subject to change due to weather and other factors.
